ClearRay **1500 DR**

Integrated with MasterX & Powered by Voyance®

A feature-rich Veterinary X-ray system built for durability and versatility with customizable 4 way float top table. The Clear Ray 1500 is unique in the market for its unprecedented customizability, making it highly adaptable to any Veterinary environment.

ClearRay **1500 DR**

Integrated with MasterX & Powered by Voyance®

Functionality

Our unique 4-way floating table design is the most versatile on the market, with the greatest lateral range & the ability to accommodate patients weights up to 500 pounds.

High-end Components

The ClearRay 1500 comes fitted with CPI generators and a Canon tube. ClearRay 1500 is a sturdy yet lightweight and aesthetically appealing veterinary radiology system.

Silent

Rubber-cushioned feet reduce noise and minimize vibration, providing better operational quality.

Ease-of-use

Foot controlled, one-touch function for exposure and collimator laser light control for easier animal management and image capture.
